ab initio ad infinitum

From the beginning to infinity

“A brief History of Christianity and Modern Science”

A rollicking wide ranging coverage of how all Science was based on Religious belief in the Creation and the existence of an Invariable Universe. How Faith and Science drifted apart, how Science became Atheistic and irresponsible, and why Science needs Faith to be study to serve Society.

A thoroughly one sided view by which the Speaker has lived his Scientific, Philosophical, Faithful and Personal Life
